Joan's story is very interesting, her father is lame and the mother is a peasant. They love the CDE and don't stop blessing God for what it is doing in the life of their daughter. Joan was praying fervently to get a sponsor; God answered her by sending her a very special family. They have been a great blessing to her, on top of sending their monthly support, they send her gifts; write letters; send pictures, cards and poems which are full of love. Joan's life has not remained the same, a girl who used to dress roughly is now one of the smartest in her village; **she** has bought a bed and got a mosquito net from CDE. She enjoys center days, medical care, school fees top up, scholastic materials and all CDE programs. Using one of the gifts she got from her sponsor, Joan bought a pig which she and her parents are taking care of well. The pig is growing and you can see it in the picture attached. Joan is happy, she has accepted Jesus as savior and Lord of her life; she is healthy and growing steadily. What a blessing for Joan! If you sponsor a child, he or she can also be like Joan!
